

subsequent nuclear fission to release tremendous amounts of energy even in the form of a weapon.

I began the work of industrial spying for the Soviet Union in 1936 with the full realization of what I was doing. I thought that I would be helping a Nation whose final aims I approved, along the road to industrial strength. Particularly, was I taken with the idea that whatever I did would go to help make living conditions far more advanced along the road as we know them here in the United States. To amplify, I felt that the industrial set up of a Nation which had only very recently begun to get any kind of a basic industry going, was so far inferior to what existed in other countries, that anything that I could do would be helpful.

Sometimes I was struck by doubts, twofold in nature;

Number one - Especially early in my association from 1936 to 1938 it seemed that the information I was turning over was exceedingly non-utilitarian but I was always assured that it was well received.

Second, the one fear that troubled me during the entire time from 1936 on was the possibility that in the event of exposure my family, which had no idea, not even the very slightest, of the work I was engaging in, would be completely and horribly disgraced.

This affair grew and as I imagine is the case with dealings of such a nature, I got so involved that even had I wanted to, it would have been extremely difficult to get out. However, I would like to qualify this last statement by saying, while on several occasions I did desire to once and for all stop doing this work, that I never once actually suggested it to any of the people with whom I worked. The longest break in all this time was the two year period when I went to school in Cincinnati, 1938 to 1940.

My reaction to the work that I did with Dr. Fuchs was twofold in nature. On the one hand I felt that as an ally, I was only helping the Soviet Union obtain information that I thought it was entitled to. I was troubled even by this, but I persistently put any thoughts out of my mind and as I have previously said, I was in so deep that I was, to a certain extent, bewildered and didn't know what to do. Secondly, the realization that I was turning over information to another power concerning a weapon was so frightening that the only thing I could do was to shove it away as far back in my mind as I could and simply not think on the matter at all.

To amplify somewhat, what I did except during the periods when I actually had to plan to meet Dr. Fuchs or to transmit what he gave me to

John, was to simply blot out of my mind as well as I could any thoughts whatever on the subject. I hoped, and many people do, that atomic energy would never again be employed as a weapon.

I would like now to make as absolute a statement as possible concerning the following:

Neither my mother, father nor brother ever had the slightest inkling that I was ever engaged in any work of such a nature, either industrial espionage or the later affair with Dr. Fuchs. This represented a considerable strain to keep concealing from them over so long a period but I did succeed by one maneuver or another and as of even this minute, they have not the vaguest idea what went on. The same applies to any people that I have known and been in intimate contact, and have worked side by side with, and have been close friends with, over the period of the last 14 years. This particularly applies to people with whom I worked either in industrial laboratories or more recently, in medical research.

The one possible exception to the above is my former employer and acquaintance, Abraham Brothman and while I surmised that he suspected that I had given industrial processes to the Soviet Union, still he had not the slightest idea of my work with Dr. Fuchs.

In addition to the previous nine pages in this statement, I wish to make the following additional statements.

On my final visit to the Heinemann's home in Cambridge, Massachusetts, I very briefly met Robert Heinemann. This is the only time that I ever saw him.

The entire idea of the underhanded work required in the industrial and subsequent spying was always very repugnant to me. I always considered myself as just a worker in a particular field requiring some degree of technical skill and diligence; and I have been most happy when I was just left alone in the laboratory to work. I always looked forward to the time when such actions as I have described in the body of this statement would no longer be necessary. I even expressed that to the people with whom I was in contact, and they agreed. This is not an attempt to shift any of the blame for my actions away from me.

I, Harry Gold, of 6823 Kindred Street, Philadelphia, Pennsylvania, make the following voluntary statement to Richard E. Brennan and T. Scott Miller, Jr., who have identified themselves to me as Special Agents of the Federal Bureau of Investigation, United States Department of Justice. No threats or promises have been made me, and I realize that any statement I make may be used against me in a court of law. I have been advised that I may secure the services of an attorney.

In the summer of 1936 I made several inquiries concerning the Communist Party of the United States. At this time I was employed as a chemist by the Pennsylvania Sugar Company, of 1037 North Delaware Avenue, Philadelphia, Pennsylvania.

In the fall of 1936 I was visited at my home by a man who identified himself as Paul Smith. He said that he understood that I was a chemist, and he thought that possibly I might be interested in aiding in the procurement of industrial information for the Soviet Union. This began a period of industrial espionage on my part which lasted until 1943. My association with Smith was of relatively short duration, during which time I furnished him with some data concerning processes that were being worked on in the laboratory of the Pennsylvania Sugar Company and subsidiaries. This data was as complete and factual as I could make it.

Smith, whose name was obviously false, was followed in succession by two men, one of whom identified themselves as Fred, who had a pronounced Russian accent.

In the early summer of 1938 the possibilities at Pennsylvania Sugar Company had pretty well petered out, and I was several times pressed to try and obtain other sources of information. By this I mean people who could furnish us with technical data. However, in my circle of friends there were none who were even the remotest likely candidate, and so I did nothing. This led to a break of over two years, during which time I attended college in Cincinnati. I graduated in 1940.

On my return to Philadelphia I was again contacted by the people with whom I had worked before. I was called on the phone in July, 1940, and I went down town to see this man, who turned out to be Jacob Golos.

He again pressed me to continue the work which I had done previously, and I agreed. However, it was pretty sporadic in nature, and, with the exception of the one contact that he gave me, Abraham Brothman, nothing much came of it. I was supposed to get information of a technical nature from Brothman, but very little came of that, simply because he was extremely unreliable in getting material together. He gave me some data on mixing equipment which was practically all his design, and it seemed to me that practically everything he gave me at any time was his own invention or design. Brothman kept pressing me on several occasions, and wanted to know about the possibility of his doing consulting work for the Soviet Union on an open basis, as a private individual, and they acting as representatives of their government to this company, and whenever I mentioned it to the people with whom I was in touch they discounted the idea and wouldn't listen to it at all.

I never told Brothman of my association with the Soviet Union, but I think that he suspected it because of the way that I operated—I introduced myself by another name.

I knew Golos for a very brief time, and he was followed very shortly by a man called Sam about the end of 1940. It was with Sam that my association continued uninterruptedly as a contact. I used to meet Sam almost always in New York. Sometimes, very rarely, he would come to Philadelphia, but usually it was in New York, usually on a street corner that we met. Normally we went for a walk. Sometimes, but rarely, we had something to eat. Sam did not have a Russian accent, but I had an idea he was a Russian.

Shortly after I met Sam he told me that there was not much purpose to continuing this work in general, and that the best thing I could do would be to forget about it, and this state continued from late 1940 until the fall of 1941, after Russia was attacked by Germany. Then Sam called me up, I met him, and he told me that we had to begin an intensive campaign for obtaining information for the Soviet Union. This happened about a couple of months after Russia was attacked by Germany. At that time I made a half-dozen trips to upper New York state, namely, Syracuse, Rochester, and Buffalo. I was to transmit information—I acted as a go-between.

What I did on each of these occasions was to obtain information from someone that I didn't know but who was, I'm pretty sure, an American, a native, and I gave it over to Sam, or sometimes not to Sam but to someone who I did not know by name or anything. I just got it and either I received material whose nature I did not know except that they were very bulky packets, and in a matter of hours, or sometimes even minutes, turned it over to a third person, sometimes Sam. There was one man that I saw twice in Rochester,

one man that I saw twice in Buffalo, and there were two others that I saw once, and I got the definite impression in each case that they were native Americans. Sometimes I travelled with the information from one city to the adjacent one, that is, say, from Rochester to Buffalo before turning it over.

In very early 1944 I was told by Sam that I was to undertake an extremely important effort. This was to be work of so critical a nature that I was to think twice and three times before I ever spoke a word concerning it to anyone, or before I made a move, before I spoke to anyone concerned in it. He didn't elaborate on what the nature of the work actually was but he gave me the details of an arrangement whereby I met Doctor Klaus Fuchs. This meeting took place on the east side of New York on a Saturday. As I recall, the arrangements for actual recognition included the fact that I was to carry a pair of gloves in one hand, plus a green-covered book, and Dr. Fuchs was to carry a hand ball in one hand. I cannot recall whether Sam gave me Dr. Fuchs' name, he may have. In any event, we met in, I believe, late February or early March of 1944. I introduced myself to him as Raymond. He never used the name. He knew it was a phony. He introduced himself to me as Klaus Fuchs.

We went for a brief walk and then took a cab uptown to a restaurant around 3d Avenue in the 50's, where we had dinner, but we did not speak much there. Afterwards we went for a walk, during which we completed arrangements for further meetings. Among these arrangements were:

1. We were to be extremely careful and never meet in a restaurant again.
2. We were only to meet for as brief a period as was necessary to complete whatever we had to do.
3. Each meeting included complete arrangements for further meetings and provisions were made for alternate dates and places, but we were never to meet in the same place twice.

He told me during the first and second meetings that he was with the British Mission working with the Manhattan Engineer Project. He also explained to me the manpower set-up of the British group as he knew it. He told me that they were working on the separation of isotopes, and it seems to me that there was at least employed the eventual utilization of the energy produced by nuclear fission in the form of a weapon. One thing he told me on many occasions was that they worked in extremely tight compartments, and that one group did not know what the other group was doing. This I can verify by the fact that he told me that he thought that there was possibility

of a large-scale installation for isotope separation projected for future development somewhere, he thought, down in Georgia or Alabama. This, of course, later turned out to be Oak Ridge.

The second meeting with Fuchs consisted of an amplification of our arrangements for meeting and a description by Fuchs of the physical and personnel set-up of the Manhattan Engineer Project. *This meeting was in New York.*

During these first two meetings neither Dr. Fuchs nor I made any direct reference to his supplying me with information, but it was more or less mutually understood that he was to supply me with information from the work he was doing.

The second meeting took place with Fuchs a few weeks following the first one somewhere in Upper Manhattan. Successive meetings took place in a number of widely separated localities, including the Bronx, Brooklyn, Manhattan, and Queens. There were, in all, until the summer of 1944, a total of in the neighborhood of five meetings, on at least two of which occasions I obtained (from Dr. Fuchs) information. This consisted of a number of folded sheets of paper containing (during one brief glance that I took on one occasion) mathematical equations which seemed to concern mathematical derivations. This data I turned over to, I believe, Sam's successor, John.

I would like to add that Sam was succeeded by a man named John shortly after I met Dr. Fuchs. I do not believe that I ever turned any information over to Sam.

On the occasions when I turned over information which I had obtained from Dr. Fuchs, the time interval involved was very short; by short I mean a half-hour at the most.

The exact dates that the information was given to me in New York by Dr. Fuchs I cannot accurately say, except that they were probably between April and June or July of 1944. In August of 1944 Dr. Fuchs failed to show up for his scheduled meeting. This was to be in the vicinity of a movie theater near the Eastern Parkway in Brooklyn. He did not show up for the alternate appointment and I had no means of telling where he had gone, though he had mentioned that he was due to leave for another location. The only information he had was that he thought it was somewhere in Mexico, not New Mexico. John then obtained the information whereby he was once more enabled to get in touch with Dr. Fuchs. He gave me the address of a Mrs. Heinemann in Cambridge, Massachusetts, who is, I believe, Dr. Fuchs' sister. I went to see her in September of 1944. The family was away on vacation. I did see her the second time that I went to Cambridge, which was in the fall of 1944. I told her that I was a friend of Dr. Fuchs; that I had met him in New York; that I happened to be passing through Boston on business and I just wondered if she knew where Klaus was. I used here the same name that I had used on meeting Klaus, which was Raymond. She told me that Klaus was due about Christmas time, was very fond of Mrs. Heinemann's children and he had written her that he would be coming home about that time. She did not tell me where he was except that it was somewhere out west. So, I left an envelope containing a name and telephone number in Manhattan. This name I think may have contained the first name "Jerome" or at least a name with a "J" and was somewhat similar to Kaplun (phonetic). This is not the name. About all that I can say about it is that it evokes a familiar sound - a familiar memory chord.

Early in 1945, John got in touch with me and said that we had heard from Dr. Fuchs. I went up to Cambridge and saw Klaus there. He told me that he was working at a place called Los Alamos in New Mexico, he said some distance from Santa Fe. He also gave me written information at that time and we made an arrangement to meet in June of that year in Santa Fe. This meeting took place in the home of Mrs. Heinemann in Cambridge, Massachusetts, but she was not present at the time of our conversation. The whole meeting was of very brief duration. Before I met Dr. Fuchs on this occasion, I was given a sum of approximately \$1500, as I recall, to offer to Dr. Fuchs, should he need it. I was told to be very diplomatic about this matter so as not to offend him. He turned it down cold. He turned down cold even my tentative offer, so that when I returned to New York, I gave the money back to John, along with the information

which Fuchs had given me at this time.

During my vacation in June of 1945, I went to Santa Fe via Albuquerque and met Dr. Fuchs there. He gave me another set of data and we agreed to meet again in late September of the same year in Santa Fe. I took this information back with me to New York and gave it to John. Our conversation there was extremely brief and even there, as when he worked in New York, he was dubious about the possibilities for any real and immediate utilization of atomic energy in the form of a weapon. I do not exactly recall the circumstances under which I turned this information over to John in New York. I traveled to Albuquerque on this first meeting via train to Chicago, then by train to Albuquerque, and finally by bus to Santa Fe. My meeting with Dr. Fuchs was on Saturday afternoon. ~~This meeting was~~ ⁽¹⁻⁴⁾ ~~in the city of Santa Fe.~~ Then I returned from Santa Fe to Albuquerque by bus on the same day. As I recall, I slept in the hallway of a rooming house where those who were unable to obtain hotel accommodations were bedded. I returned the following day from Albuquerque to Chicago and then via Chicago by plane to either New York or Washington and then by train to Philadelphia. This jumbled up method of travel was necessitated by the traveling conditions at that time.

Here, I would like to make the following statement: All of the expenses involved in any of the work that I did were paid for by me entirely out of my own funds. Immediately upon my return to New York, I turned over the information which Fuchs had given me, to John. The next meeting with Dr. Fuchs took place in late September 1945. I again met him in Santa Fe, this time on the outskirts. He had a car, a rather dilapidated affair, which he had borrowed, and we conducted all of our conversation in it. He gave me some information again. Also, he told me he had been present at the initial large-scale trial of nuclear fission at Alamogordo in New Mexico, and also described to me the tremendous wonderment that had descended upon even those who had the most intimate knowledge of the potentialities of the weapon -- most especially on the occasion of the dropping of the bomb on Hiroshima. It is my best understanding that he was actually present with the group or certainly near the group that set off the trial bomb at Alamogordo.

Dr. Fuchs told me also at this time that he would probably return to England soon but that by paying a call to his sister I could ascertain just when. This statement may not be completely accurate in this sense, it also seems to me that he gave a definite time, about Christmas week of 1945 when he expected to again be in Cambridge.

In early evening I returned by bus to Albuquerque and got an early morning plane from Albuquerque to Kansas City. There, I had to transfer to a train which took me to Chicago and I went from Chicago by way of New York Central to New York. From New York I went to Philadelphia and no more than several days later, turned over the information that Dr. Fuchs had given me to John in New York City. To the best of my recollection, it was out beyond Jackson Heights somewhere in Queens where I turned this information over to John.

Here again, I would like to repeat what I previously said, that this jumbled up method of travel was necessitated by the lack of facilities at that time and heavy travel at that time and was not intended as a means of throwing anyone off my trail.

This was the last time that I saw Dr. Fuchs or obtained information from him.

I made either one or two attempts to see Dr. Fuchs again at the home of his sister. This effort was not successful in that he was still in New Mexico. After the possible second attempt which was in either late January or early February, 1946, my scheduled appointment to report to John did not take place. This was to be at the Earle Theater in the Bronx, New York. I never saw or heard from John again.

In summary, to the best of my recollection, Dr. Fuchs gave me information on five occasions. Two times in New York in the Spring and Summer of 1944, once in Cambridge in very early 1945, probably January and twice in Santa Fe, the first time in June, the second time in late September, both 1945. On each occasion I subsequently turned this information over to John. It is possible, although I doubt it, that Sam received from me the first information which I had obtained from Dr. Fuchs.

During my association with Dr. Fuchs, Sam and John, I fully realized that the information which Dr. Fuchs was supplying me and which I turned over to Sam or John was for the benefit of the Soviet Union. I also surmised that the information concerned the separation of isotopes and the

Dec 26, 1946 - meet with Yakovlev -

Harry told to prepare for a trip to Paris - in early spring of 1947 - possibly March or April -

Use any # of excuses - to get away from work

Try to contact a prominent chemist in France - story of working along same lines & wanted to see him personally -

H to meet as man in a Paris Subway
Time, place & date furnished by Yakovlev
a monthly affair - weekday -
walk in definite direction

H to be approached by man who asked - "Do you have the records?"
"Yes, I would like to have them again"

Possibility this conversation to have been in French ↔

This info - given on onion skin paper by Yakovlev -
Place - date - time - recognition signal

A destroyed paper - just prior to talking to Agents Shannon & O'Brien in 1947 -
put it down toilet

H to be contacted in Paris -
Place designated for H to stay but he can't recall it - (over)

to be a continuing operation —

Description: Notes of interview of Harry Gold

File No. 65-4307-1-B-15(23)

8/24/50 Interview of Harry Gold
Robert G. Jensen

Alexandre Ivanov -

possibly is identical with Uncle Russian
who met Harry in Phila Sept 1949

Allison - photo identified by H. G. -
says last seen in 30 or 31
never in any of his classes says H.

Shumovsky - a total stranger

Smily - positive id - very prominent

friend of Brothmans -

SLOVAN, Harry - worked for Palestine Potash -
had built a dam in Jerusalem

Ely Shalit, Shalit

was in papers in 1947

warehouse full of arms

8/24/50

Smile -

Registered at Cincinnati Club (at time)
Registered at Gibson Hotel

RICHARD SCHMITT or SCHMIDT (now an MD)
grad from Xavier in 1940

Met him for lunch at Gibson Hotel &
had few drinks with him -
U of C Med School

Possibility date of receipts were 3 or 4 receipts
1933 or 1934

1 definitely 1935, 1 def 1934, poss 1936
— October receipt & November —

Never discussed Russian & German

1st meet - Sat after Thanksgiving 1938
Have Smiley wallet - button pinned letter in it.

2nd meet Early Feb - to Dayton
Did not see Smiley - not home

3rd meet - March 1939

Lied to Fred said he made more visits
than he did to see Smiley.

Graduate of NYU - Aeronautical Eng shorter
than Harry was also

Wright field
Lived in Cincinnati but in Dayton

Possibly saw Smily around December
before Knapkins -
He said something about trip to
East -

Little short fat guy -
Aeronautical Engineer from N.Y.U.
was present -

In March 40

Smily spoke of accident
on return from East -
Accident in Ohio or Pa -
Serious accident -
possibly to Boston or N.Y. -

8/24/50

Brother Dave Smily also along to lecture
also there.

Lewisohn - said Jewish were
chosen people & Gentiles were second
rate people.

Membership for regular contribution
to defend against attacks of Anti-
Lewisohn called them medieval people.

A stout girl, not good looking
but pleasant - took Harry's name -
connected with Lecture - believed
she knew Smily - possibly a
neighbor. Dave Cinnamonati addressed
but never said bill.

Went to place outside Dayton. Had
hamburgers & malted milks after
Lecture.

The local radio operator liked H.

5th - Fall of 1939 - definitely

4th 1939 Walking with Smily in hot weather
is Dayton on his home - made
tentative overtures to Smily. Smily said it
disgrace of Jewish people.

6th In Spring of 40 - March - went to
see Smily - asked point blank to
help Soviet Union - no luck. ^{Fred gave him note}
showed him written note ^{from Stan} - he went
upstairs in house to read it - was asked
to destroy it - but H didn't get it back -
H wrote letter to 24, address und, saying I was unable to sell
car.

7th One just after Exams in June of 40 -
again asked him to help -
These instructions given to Harry by Katz -
told Smily we can meet him anytime, anyplace

8/24/50

Whole talk by Katz - concentrate on
staying in Cincinnati - work on
Smily -

Make him an offer of help -
in way of money if he needed it -
Some possibility he could send brother
to school on money need -

- Semenov -

resume of H - picture -
Perrin Sugar stuff -

Mr. Al Sklar

①
Saturday afternoon,
May 13, 1939.

Dear Al:

I feel very guilty in not having written you before this and I realize that it looks even worse in writing now when I'm asking for something. But there's no use in shilly-shallying around, so here goes. I've gotten into a bit of a financial pickle - due partly to some rather senseless generosity, and partly to the fact that the folks have been having some difficulty of their own - and I now stand very much in need of \$50. This amount is neither more nor less than I require and will just about carry me through this crisis, now.

I quite understand that with the baby coming on that you need all you can put together. Also, there may be other money troubles which I have no means of knowing about, and I feel like the worst kind of a rat in having to ask you now. Actually I hope to be able to return the money by the middle of June. It is just that I kept putting off things till I got in a spot where I need the money immediately. I could use

20 right now and I need the rest in two weeks at the most. However, don't in any case put yourself or your family out in order to help me. I'd feel worse than ever if you did that. I'm only asking you with the idea that possibly you can do something and not that I expect you to do it. I hope you understand that I could never bring myself to ask you for the money if I didn't need it very badly.

How is the wife these days? It's hard to realize that you'll soon be a father. Yeah man! It'll be a boy you'll see. For once I'll guess right. For the kid's sake I hope it gets a break and don't take after you. I wrote mom that you were expecting and she got a big kick out of it. Pop and you are doing fairly well these days. You know, I sometimes wonder how you gets along without her around. I'll bet it don't seem like home without me yelling "Hey, yes, get my slippers".

How are your mom and Pop these days? Well, I haven't seen them for so long. Since the wedding to be exact. Give them my regards, will you. I know, I meant to send you an

①
emergency card but I forgot. Well, go till
I hope to be able to come home for about
a week during the middle of June and, if
I can let me have the money, I am almost
sure I can repay you then. I'm just in a
tough row now where I need it within the
next two weeks. In any case, please answer
right away so that I'll know whether
"yes" or "no". I enclose stamps for the
post.

your pal,
Harry Gold.

Wednesday evening,
May 17, 1939.

Dear Al:

I really don't know how to thank you for sending me that money. Boy, would I have been in a jam without it! When I come to Philadelphia about the middle of June, as I said I would in my previous letter, I'll tell you the whole story. It just goes to show you how big a dope a supposedly educated man can be. Yeh, it's me I'm talking about.

Did you say $\frac{2}{3}$, Al? I'm sure all -

December, January, February - - - ; yep, that's about right. Listen, I don't want to get in bad with the missus but I've got positive information it's going to be a boy! Don't ask me how I know, I just know, that's all. A smart guy like me shouldn't know. Did I hear you laughing? But that's all no matter; the really important thing is that as little as I've got to do with it, I'm very happy about the whole thing - I mean it, too - and when it comes I'll be over and

we'll both drink a big "mazel tov". Right?
Right!

See, Al, if you can send me the other
\$25, I sure would appreciate it. That will
just pull me out of this mess. Only one
thing, though: it's taking an awful big
chance sending money in a letter without
either registering the letter or sending
it as a money order. Of course, I realize
when you come home you're too tired to
even move, let alone make a special
trip to a post office, but it would be terrible
to have the money go astray. And don't
think I'm not grateful for your sending
that first amount so soon.

Also, I'm not just shooting off my
mouth when I say I'm going to return
the whole \$50 about the second or third
week in June. I know you'll be able to
use it. So I'll be hearing from you soon,
and again, thanks a million.

your friend,

Harry.

First heard of Vago in 1943 during the time Brothman was anxious to get financial backing from Amtorg.

Brothman said Miller & Vago were communists —

to work

Heard of Vago while
at Regal Chemical —

— first personal contact in May of 1946 —

Miriam disliked Vago intensely —
as he made salary demands —

A "Franklin" in Harlem criticized
CP in '48. Brothman agreed in principle
and as a result was kicked out of
Miriam's Club, where he indicated his ^{understanding} agreement
(Chelney ^{may be} ~~Lycho~~) with Franklin's criticisms.

Bob Elson was asked on numerous
occasions to join by Vago — but
never did — not a member —

May be taking courses in Physics at
NYU or Columbia.

Possibly Vago mentioned his immigration irregularities
to Bob Elson

- 1) Korchin & Abe called before FAECT.
right around time Harry arrived &
Brothman had work in May 46 -
And also a CP discip. mtg - 2 appearances
Complaint lodged against A. Brothman & Assoc.

Knowledge of above came here - Thursday -

- 2) Discussion at Carnegys Restaurant - dinner
This centered around a violent argument
before the disciplinary committee of the
C.P.

Carnegys { Miriam, Oscar, Abe, Korchin &
possibly Sol Farschel - & Harry -
definitely a CP meeting -

A woman was at this committee - of Party -
her name may have been "Freda" - She was
a member of Dis. Comm. (?) he believes.

In addition Dr Yusem claimed Abe had
used his manufacturing ideas & methods
in polymerization of methyl methacrylate

Korchin had wanted to punch Yusem in
the face -

Bess Wollan may have been at this CP mtg ^{↑ may know} Chester -
This woman "Freda" apparently sided with
Yusem.

Julius - said lets not get stirred up about
this matter with "Chester". They looked
at Harry as though he knew "Chester".

"Chester"

10-18-30

H has feeling they had just come from mtg - the CP mtg -

Believes Abe called him and said come on down to Carney

Disciplinary mtg - definitely CP disc mtg -
Abe, Jules, & possibly Gene!
Oscar (?)

3) Possibly following Tuesday of next wk -
H walked into office about 6⁰⁰ or 6³⁰ PM
& walked into middle of conversation
between Abe & Korchin -

Korchin was just saying he had
spoken to "Chester" either that day or
previous day and there would be no
more complaints before the Discip comm.

Korchin said "Chester" said he would
handle the entire matter

4) Again at Vago's in 1948 -

at CARNEY'S 32nd St & 4th Ave

Owner knew H. & Jules -

June & July 1946 -

10-18-50-

Miriam hated Naomi B -
tried to make Harry dislike
Naomi as old ANNIE - Naomi's mother -

Old Annie - was a worried old mother

Brothman → Mockwitz once slept with a Negro CP
member for a period of several months -
He was in her apt -

This happened one night - after Mock
gave Abe some CP info contrary to

July 28, 1946 - H & Abe returning from
Peekskill - Before going away for
week end a party held at Peekskill -
Mockwitz picked a fight with Abe -
She then said she would not back
anymore -

Abe said Mir was a selfish, hateful
vengeful bitch, who cared only for
money and herself.

That afternoon - Abe & Mir hugging
one another in office - many quarrels but
they always made up -

Rosenberg

10-18-50

Feels certain he saw ROSENBERG
a second time on morning in Feb -
Just as he was getting into the
cab -

10-18-50

Feb 1937 a strike at Plain Super Co
lasted about 4 weeks -

About 600 men stayed in plant
under siege from about 400 outside!

Harry did not stay in plant - went home
after strike was settled - was rehired ↔

10-18-50 -

Yusem once worked for a Dr HARRY
(30-32 yrs of age now) SOBOTKA -

a prom. biochemist -

Mt. SINAI Hospital, NY -

if Yusem would leave Sobotka would
give him a letter of ref -

Sobotka wanted to get rid of Yusem

Similar incident at MDT - Yusem's
prof of Org Chem said he would
get him PhD if Yusem would leave
MDT.

May have lived in Greenwich area -
May be from Boston -

Worked for an industrial firm

Major in Organic Chem -

in Micro Analytical Field of Organic Chemistry

blonde, curly hr

pale features

blue eyes -

generally thin & effeminate face & ^{voice} mannerisms

May or may not have

In 1945 while H at Akes - he met Yusem
Black was with him.

H stayed at Blacks home overnite -
in May or July -

They met Brothman on SW corner of
7th ave & 31st.

Brothman, Mark, H & Tom had lunch
together in Schrafft's on NW cor of 4th & 30 or 31st.

Then out to Lab -

Tom hid H as an expert on plastics -

10-16-50
65-1307-18-K(23)

Hershel - could well be Harry's name —

Brothman called him Hershel

2) E.Q. might mean Ask Questions —

RUTH LEWIN - a draftsman at ABA —

1) ROMANI - the binder employed by ABA —
B - Brothman —

3) Bot Person (?) Did Harry discuss with him his wife & 2 kids —

4 - No knowledge —

5) H didn't get home for a few weeks in June - Father did write —

6) One time - H slapped her on the face & told her to get up - She told Abe about & he told H not to have anything to do with her - H told Abe that his wife was going to leave him because he had spent all of his money on Soviet Espionage & Abe gave him the usual platitudes —

7) Miriam had brother by name of Sylvan - Possibly he could learn of H complaining about Miriam to Bot Person —

10-16-50

8) pay away -
She wanted Abe all to herself - & anyone
who infringed upon this was put on
her list - Eve - Europe - Oce - Ocean
Used to take care of Abe's clothes - dry
No sig -

9) Brathman return from Europe -
date must be 48 - as - mty was
held -
Harry had employees gathered
in plant - Harry had set out to
Abe about various things that had
built up - back pay, broken promises
etc. - We can salvage something about
this firm - Moskowitz must go -
Oscar Vago, Phil Levine & Thome kept
out of it -

8-2-50 1 - if - obvious signs of -
M.M. - Moskowitz / other means
A.B. - Abe - nothing - No sign.

"Chester" ^{Sonnet} ~~Party~~ disciplinarian - among ~~Sonnet~~
attached to CP Adpts in N.Y. City -

first wk in June '46

KORCHEIN - knew ^{him} from the way he talked -

When H first went to NY, he stayed at
Maskowitz Apt -

A quarrel - between Brothman & an
ex-employee - who was a PHN from MDT
in Khomei -

had already ^{left} Brothman's employ in
Feb or Mar -

Quarrel about some money due for
overtime -

This employ went before FAECT
& laid his complaint before them.

In 1st wk of June 46 - she called
to FAECT Adpts. & caught hell -

It maybe that later she went before
the CP where this woman was
involved. ^{PHN} agreed with Sullon story -

Definitely 2 mtgs - CP & FAECT -
KORCHEIN may have gone to FAECT
but probably went before the CP, unit

2) 10-16-50

That heard Brothman.

1) Korchein wanted to punch this Dr Milton (Lerner) Harry didn't meet him -

Korchein, Brothman, Moskowitz & possibly Vago - & Harry G.

Korchein said he would personally go see "Chester" and straighten out the whole matter.

Harry didn't know "Chester" but merely looked wise - when they all looked at him.

About first week of June 46 - ^{Harry} Corb Bar & rest S.E. corner of 32 St & 4th Ave. Carnes Place

A couple days later in following wk - about Tuesday - in outer office - Harry entered outer office - Korchein & Abe talking - " said he had seen "Chester" & the whole matter was straightened out.

Eddie & Walter Quick -

8503-37th Ave, Elmhurst, Long Island would know name of employee, the PHD who Brothman fired -

Summer of 45 Harry met this PHD once at Brothman - Black may have been along.

Next time he heard of "Chester" was the when Brothman was in Switz -

3)

10-16-50

Harry at Vago's residence - June 48
Vago said one of things that should
be done was to bring Brathman
before "Chester" of Chester still here -
Vago turned to Harry & said
"you know who Chester is? he is
the ^{Part} disciplinarian"

He is writing - now 108 pgs in length -
the circumstance surrounding my
becoming a Soviet Agent - 10-11-50
Want to show it to be all first -

Re Expenses - He says his total
espionage expenses probably ran
closer to \$6,000 than \$4,000 as he
previously said - He contributed about
50%

Sullivan said Brathman had been
brought up before a Party Unit & would
be again. in 1946 -

↓ "Would go easy on Brathman as he
was not a Soviet Agent"

When H was in High School - Southern
He in Phila — H told Brathman
this —

During an exam given in an English class
is given last yr in High School - an exam
was given re MacBeth - The instructor
asked H to grade the papers - H took
the papers home - changed answers &
every student passed. The instructor
a Dr Farbach was quite sarcastic &
told H everyone did well and left H
alone —

H lied to Abe - said he was a basketball
player & had played on a championship
team at Southern - but he never had
played basketball.

H ran on freshman Cross Country team
in college - told Brathman he ran
